Front-end – Vue, Vuex, GatsbyJs, React, jQuery, Bootstrap 4, SCSS, SVG

CMS – WordPress, WooCommerce, DirectusCMS, NetlifyCMS

Other – JIRA, Bitbucket, GitLab, SVN, Git

## Larger Projects

**Pazarluk** (Full-stack PHP developer)

<https://pazarluk.com/>

The team needed a developer to design and build the entire mobile version for the website. Also someone to rework most of the admin panel and other smaller tasks for desktop

**Stack:** PHP, Laravel, MySQL, Vue, Redis

**Ucha.se** (Full-stack PHP developer)

<https://ucha.se>

ucha.se is one of the most popular educational platforms in Bulgaria. The team was using their own MVC framework and ORM and many features had to be implemented from scratch

**Stack:** PHP, MySQL/MariaDB, jQuery
